

ESK601 04-09 CRF250X & 05-09 CRF450X Ignition Key Switch Kit Fitting Instructions

This kit will provide you with a plug in ignition key switch for your 04-09 CRF250X & 05-09 CRF450X.

Remove both headlight mounting bolts with 8mm wrench, and remove headlight.

1

Remove upper right side clamp bolt with 10mm wrench.

2

Mount key switch with bracket to top right clamp bolt.

Unplug the stock 2pin & 3pin connectors underneath headlight

4

Plug in all connectors to their appropriate mate. See next page for details.

5

6

Reinstall headlight. Bike will now start like normal when key switch is in ON position. Bike will not start with key in OFF position.

Now go ride!
